

Ecole des Roches

Lecture on Thursday 10 November 2020

"Cybersecurity and cyber-crime".

Hubert CHENUT

Co-founder CnC Expertise
Information security professional

Successively an offensive security specialist (intrusion test) for more than 5 years, then a consultant in defensive security for major accounts (finance, energy, transport, luxury...) for more than 5 years, Hubert joined the expertise in 2019. Hubert has in-depth knowledge and maintains close relationships with cybersecurity players in France.

Adrien CAPRAI

Co-founder CnC Expertise
Expert since 2012

Leading insurance expert in incident response and handling of major cyber claims in France. Successively IT manager, then CIO for a European network of cost optimisation experts, Adrien deployed and administered numerous systems for more than 10 years before joining the expertise.

CnC Expertise is an insurance consultancy specialising in cyber incident response and IT-related claims.

CnC Expertise was born out of the meeting between Hubert Chenut and Adrien Caprai in 2019 and the realization that incident response and expertise must be independent, rigorous and controlled. To deliver a quality service, we are convinced that dual skills in insurance and information technology are necessary.
